

Orlando Ruiz

Web Producer and CMS Specialist

Chicago, IL • (773) 749-5345 • Orr332@Yahoo.com • www.OrlandoRuiz.net

Profile

Results-driven Web Producer and CMS Specialist with 10+ years of experience managing enterprise websites and digital platforms for global organizations. Expert in Adobe Experience Manager (AEM), WordPress, and Sitecore, with deep experience in accessibility (WCAG 2.1 AA), UX optimization, and data-driven conversion strategy. Proven ability to translate design systems into scalable CMS components, streamline publishing workflows, and deliver compliant, high-performing digital experiences through cross-functional collaboration with UX, marketing, and engineering teams. Expert in Adobe Experience Manager (AEM), including workflows, templates, components, and structured content management across enterprise environments.

Core Skills

Web & UX Design: HTML5, CSS3, JavaScript, Figma, Adobe XD, Wireframing, Prototyping, Responsive Web Design

CMS & PIM Platforms: Adobe Experience Manager (workflows, templates, components, MSM/Language Copy, DITA XML optimization), WordPress, Sitecore, Drupal, HubSpot, Optimizely CMS

Analytics & Optimization: Google Analytics, A/B Testing, SEO, CRO, WCAG 2.1 AA, Meta Data Strategy

Collaboration & Project Management: Jira, Asana, Trello, GitHub, Salesforce, Agile

AI & Digital Content Tools: ChatGPT, Claude, Co-Pilot

Experience

Web Marketing Specialist

Pearson Education | Chicago, IL

August 18, 2025 – November 17, 2025

- Translated Figma design systems into scalable AEM components and templates, leveraging workflows to streamline content publishing and reduce turnaround time by 35%.
- Performed end-to-end QA testing (accessibility, responsiveness, cross-browser), resolving 150+ content and rendering issues.
- Managed digital assets within AEM, enforcing metadata, tagging, and taxonomy standards across 30+ sites to improve content governance and discoverability.
- Used AI to accelerate content creation while maintaining governance and review checkpoints.

Freelance Digital Designer (Contract)

Advanced Web Group | Chicago, IL

May 10, 2021 – September 27, 2024

- Identified gaps in content performance, conducted audits and analysis, and uncovered optimization opportunities that improved alignment with governance standards.
- Streamlined asset management in AEM CMS platforms by applying structured taxonomy and metadata tagging, resulting in improved discoverability.
- Developed interactive CLM modules in Sitecore using behavioral data, increasing personalization across clients.
- Supported social campaigns by writing and editing content for Twitter and Facebook, ensuring clarity and brand consistency.
- Addressed inconsistencies in AI-generated content, reviewed outputs and refined prompts, leading to improved quality, tone, and compliance.

Systems Analyst

Verizon Wireless | Chicago, IL

October 4, 2021 – September 29, 2023

- Led large-scale XML/DITA migration into AEM, utilizing structured content models and workflows to ensure zero-defect deployment of 20,000+ articles.
- Partnered with IT teams on system integrations, streamlining content deployment, and enhancing operational efficiency and DITA tags.

Web Developer

Grainger Industrial | Chicago, IL

May 22, 2017 – November 5, 2019

- Developed and maintained 20+ AEM microsites using reusable components, templates, digital asset management, and structured content models.
- Collaborated with UX researchers to redesign user flows, reducing bounce rates by 30% and improving lead conversion.
- Leveraged Google Analytics to guide iterative updates, driving a 43% lift in sitewide conversions.
- Collaborated with marketing teams to optimize digital engagement across web and email channels.
- Used data insights to improve targeting, messaging performance, and engagement across Grainger.com.

Graphic Designer (Contract)

Deloitte Chicago | Chicago, IL

October 2, 2015 – November 24, 2015

- Produced visual layout documentation and digital design assets supporting corporate workspace planning and internal communication initiatives.

Web Developer

Orderzone, LLC | Chicago, IL

April 10, 2011 – September 19, 2014

- Led redesign of core e-commerce platform, increasing new customer acquisition by 40%.
- Created and managed targeted email campaigns that drove a 30% increase in engagement and repeat visits.
- Assisted with email campaign performance analysis using Google Analytics and marketing dashboards.
- Implemented and monitored Google Analytics for web and email channels, generating insights that led to a 30% boost in conversions.

Education

Bachelor of Fine Arts - Interactive Media Design

Illinois Institute of Art – Chicago, IL
